Summer is winding down, now is a great time to start thinking about your “winter repairs”. Bottom jobs, oil changes, drive services, etc. Also, EYC can install winter water so your slip can have accessible water ALL YEAR LONG.

Valued Customers,

Please note that a rate increase for slip rentals will take effect October 1, 2020. The last increase was in 2018. This is a standard cost of living increase. As you know, operating expenses consistently rise each year. Rate increases are necessary in order for EYC to continue to provide quality service.

**Thank you,
EYC Management**
