## Help Keep EYC Clean!

In an effort to keep our EYC grounds clean, especially as we begin our busy summer season, please make sure that all of your trash is bagged and placed inside one of the blue dumpsters. Trash left on the docks or outside of dumpsters, attracts racoons and other critters that make a mess.

## No Fireworks, Please!

We wish you all a very happy 4th of July, but just as a reminder. Fireworks are not allowed inside the State Park!

### If you need assistance...

We monitor VHF channel 16 or you can call the night watchman at 903.271.0969 or the office on call at 903.463.3999.

### Lake Texoma Trivia

The Red River that formed Lake Texoma is a saltwater river due to salt deposits left over from a 250-million-year-old former sea that was in the current Texas-Oklahoma border region. As time passed, that sea evaporated, leaving salt deposits. Rock and silt eventually buried the deposits, but the salt continues to leach through natural seeps in tributaries above Lake Texoma, sending as much as 3,450 tons of salt per day flowing down the Red River. Due to this phenomenon striped bass, a saltwater fish, thrive in Lake Texoma. Lake Texoma is home to the only self-sustaining population of striped bass in Texas.
